- ✓ OFS Details :
- ✓ Investor Participation : The offer for sale will commence on October 18 for non-retail investors, with retail investors being able to bid on the following day.
- ✓ Green Shoe Option : The government intends to divest 7% equity, including a green shoe option of 3.5%.

- ✓ One of the primary reasons for the OFS is to ensure compliance with the Securities and Exchange Board of India's (SEBI) minimum public shareholding norms. - ✓ **Economic Growth and Income Projections :**
- ✓ CRISIL Ltd.'s Managing Director and CEO, Amish Mehta, expects India's gross domestic product (GDP) to grow at an average rate of 6.7% through fiscal year 2031, positioning India as the fastest-expanding large economy. He predicts a significant increase in per capita income, rising from \$2,500 to \$4,500 by fiscal year 2031, effectively transitioning India into a middle-income country. This growth trajectory will be driven by extensive infrastructure development with a strong focus on sustainability.
- ✓ **Electric Vehicle Revolution :** CRISIL predicts a substantial shift towards electric vehicles, with the share of EVs in India's overall automobile sales projected to reach 30% by 2030. Two-wheeler EV sales are expected to outpace other segments up to 2028, while demand for EV buses will be driven by state transport undertakings. Factors such as favorable total cost of ownership and total cost of acquisition, along with increased model availability for two- and three-wheelers, are expected to support EV adoption in the coming years.
- ✓ **Renewable Energy Surge :** CRISIL also anticipates a significant expansion of renewable energy capacity, estimated to grow fourfold between fiscal years 2023 and 2030. Solar energy will account for half of the incremental non-fossil generation. To further enhance sustainability, the adoption of emerging technologies like 'floatovoltaics' (floating solar), offshore wind technology, and green hydrogen will be pivotal
