Interview Process

All documents will be checked , biometric and iris scanning will be done. Make sure all your documents are ready so that you don't have to face any difficulty. Follow it and you will be doing good.

Formal Attire

Your attire and clothing choices matters a lot as they form your first impression upon the interviewer. Keep your attire completely formal and avoid any fashionable or flashy clothing options. There is separate dress code of formal attire for men and women which they should follow. Attire is not just about your clothing but it is about your complete appearance from top to toe. You hairs, your nail and your shoes must be neat and clean.

Attire for male candidates at a bank interview

- ✓ A two piece matched suit is the best and safest choice. However, don't combine a suit jacket with pants that don't match.
- ✓ Avoid wearing a very costly suit to the interview, let it be decent and nominal. Choose a solid or very subtle weave pattern or plain. Black, Navy blue and dark grey are a good colour choice.
- ✓ If you can't afford a suit, it's OK to wear a light coloured full shirt paired with dark trouser.
- ✓ If not wearing a Blazer, then stick to a full sleeves V-neck sweater. Avoid half sleeve sweater, as it does not come under formal attire.
- ✓ Pair the suit or shirt with a good tie – prefer it to be plain. Tie is a must. Do not wear floral or ties with character prints.
- ✓ The belt should be dark in colour too. Avoid wearing any material with a glossy finish to the interview.
- ✓ Wear dark socks with mid-calf length so that no skin is visible even when you sit down.
- ✓ The candidate should wear black or brown coloured formal shoes. Sport shoes to an interview are a big "NO".
- ✓ Never try a new look before going to the interview. Take hair cut at least 3-5 days ago. Do not sport a beard for interview, it is advised that you shave and present yourself in a neat and formal look.
- ✓ The male candidates should only wear the watch. If you have got pierced ear, remove the ring.

Attire for female candidates at a Bank interview

- ✓ The female candidates can choose from trousers paired with shirts with a formal blazer or a sweater, sarees and salwar – kameez.
- ✓ If you choose a trouser, it should be dark coloured paired with a light colour formal shirt.
- ✓ Candidates wearing salwar-kameez should choose simple cotton suit in light shade and if needed wear a formal full sleeves V- neck sweater over it or a simple formal blazer. Keep in mind that salwar-kameez should be paired with a dupatta pinned on one side of your shoulder.
- ✓ The suit must be simple and not filled with too much embroidery or other work same goes with a saree.
- ✓ Do not wear a party wear salwar suit or saree. If you choose to wear a saree keep in mind the formal dress code. Choose a light solid colour and pair it with a collared or V-Neck (not too deep neck) and 3/4th sleeves blouse.
- ✓ Keep the make-up conservative. Use a little make-up just to give a polished look. Avoid wearing dark colour lipstick or nail colours. The nails must be clean and well groomed. If you are wearing a nail colour it should be light in colour which is even and applied on all the nails. Chapped nail polish looks bad. You
- ✓ may choose not to wear any makeup at all; a simple and neat look is preferred. The hair must be neatly tied up. They should not bother you in the mid of the interview.
- ✓ Trousers should be paired with dark colour formal shoes Females wearing saree or salwar kameez can wear flat or lightly heeled chappals. Avoid wearing high heels to the interview.
- ✓ If you are carrying a purse it must be simple and small. Avoid carrying large bags. Don't use red, green, blue, yellow purses. Black and brown are the good choices.

Check Documents

- All documents will be checked , biometric and iris scanning will be done. Make sure all your documents are ready so that you don't have to face any difficulty. Follow it and you will be doing Interview Process.

Body Language

Body Language is also a very important thing that a candidate must work on while preparing for personal interview. Body Language is subject to candidate's habits and confidence. There might be something or activities that you might tend to do unintentionally because your subconscious mind is used to them; such as nail biting, tipping toes, dragging your feet while walking, shivering feet or hands or scratching or pulling your fingers. All these are signs of nervousness and improper body language. You must also be cautious of your body posture while walking, talking and sitting.

1. Maintain good eye contact

The very first thing people will try to decide about you when they meet you is if they can trust you, and maintaining good eye contact is an effective way to convey you're trustworthy and truthful. This does not mean that you have to stare at a person or interviewer as staring is not a healthy eye contact.

2. Smile

Do not put up a crab face or a straight face in interview as it is rude and might not please the interview panel. Smile is a humble gesture of greeting, respect and positivity. Each time you make an eye contact with the interviewer, remind yourself to smile a bit so you don't look angry or with a frowned face.

3. Sit up straight

If you lounge back in your chair, recruiters interpret it as a sign of your disinterest in the open position or that you're not taking the interview seriously, neither of which is a good sign. So you must sit up straight in the correct posture.

Do not slump over the chair, sitting straight shows your confidence, credibility, attentiveness and moreover respect towards senior officials of the interview panel.

4. Keep your arms and legs uncrossed – Crossing the arms across the chest is a classic gesture of defensiveness. This defensiveness can manifest as uneasiness, shyness or insecurity. Sit or stand straight but do not cross your arms and legs, stay comfortable and attentive.

5. Do not stuff your fingers in your pocket or grip your fingers tightly.

Both these actions are negative and you should avoid them. Putting your hands in your pocket might be a sign of arrogance or that a person is unsatisfied with his self-image. Gripping tightly or scratching fingers is a sign of nervous behaviour which you should avoid.

6. Nod occasionally to show your interest in the conversation

Nodding demonstrates your interest in the conversation and your agreeability, and it also expresses that you understand what someone is saying. You may also nod to show your interest in the conversation or as an expression of paying attention.

interviewer. Do not nod excessively, keep your behaviour and expressions normal and subtle.

Greeting and Entry inside the Room.

If the door is closed, knock and ask for permission to enter. After reaching inside, greet the panel members. First greeting should be towards the female member and then the male members. Like for e.g. Good Morning/Evening Ma'am and Good Morning/Evening Sirs. But note, don't sit unless they ask you to do so. Sit straight and don't fold your leg. Keep your back straight and have a smile on your face. Try to maintain eye contact with all the panel members.

While answering too, do turn your head towards all of the members so that they don't feel left out. This shows confidence.

Important Note-

In case you don't know the answer to a particular, don't bluff, rather say "I don't have any knowledge about it but I surely read about it" Don't be quick in saying that, take 2-3 seconds and then say it.

Q. Introduce yourself to the panel members/Tell me about yourself ?

Answer. Here you have to tell about yourself and a little bit of your background. However main focus here should be to highlight your abilities, strengths, hobbies, interests and experience. Some people do tell about their role model. Two demo answers are attached.

Thank you very much for giving me the opportunity to introduce myself. My name is xyz. I am from a small and beautiful village Dayer Bazar in Nadia district. I have completed my graduation in mathematics from KGC. Then I got admission in KU and obtained a PG degree from there in mathematics. I have worked as a part time teacher in a college of our district for 2 years. Working as a teacher has helped me to improve communication skill and the ability to work in a team. Coming to my family, I live with my parents. My father is a retired Army person and my mother is a home maker. I have learned 2 important aspects of life from them, discipline and honesty. My hobbies are abc, etc. That's a brief summary of my journey so far, if you like to know any future details I would be glad to share with you.

First of all I would like to thank you all for providing me this opportunity to introduce myself. I, xyz, resident of Budge Budge in the district of South 24 Parganas have completed my graduation from University of Calcutta with Economics in the year 2019. Presently I am working as an Assistant in LIC of India. [Note here, they will ask you about LIC & why you wanted to shift. Also

there is a possibility that they may ask you why not give a job to someone who is unemployed rather than you as you are employed already. Then you must talk about opportunities in SBI and everyone wants to move ahead in a career under a promising organization etc.]

Q. Your name is xyz , what is the meaning of it or what is special about this name.?

Answer:- This is subjective. So prepare for it and also prepare for any event, idea, famous personality, animal, god, incident , term etc. that may be associated with your name. These can be the follow-up questions. Any news which is recently there which has reference to your name becomes relevant too. Demo answer- The meaning of ANIRBAN is "something that cannot be extinguished! It signifies an indomitable spirit."

Q You hail from Xyz. Xyz is famous for ? Or any historical significance of this place ?

Answer:- This calls for a background knowledge of the city or state from where you belong. Do prepare for things which are popular about your city/state. The areas that you must focus are popular crops, clothes wore by people, language spoken , tribes if any, recently in news for, national parks or sanctuary, industrial areas, vegetation, boundaries of your states and names of states that touches your state, literacy rate [due to National educational policy], sex ratio etc.

Q. Tell me the qualities associated with a good probationary officer. How will you handle a crowded day at work. ?

Answer:- Some of the qualities that a Probationary officer must possess, include Good Communication Skills, swift decision making skills, management skills, Friendly and Cooperative Nature. Also he should possess quick learning ability so as to cope with technological advancements in the banking operations. If the branch is over crowded, a PO should maintain his stoic and politeness while dealing with the customers. His managerial skills will be put to task at such a juncture.

As per me A good PO should have the following qualities:-

- a) Managerial abilities
- b) Leadership quality
- c) should be polite, well-versed and a good listener.
- d) must be calm and tactful to handle any kind of stress.
- e) should be a team man and know the optimum way to achieve the maximum etc.

Q. So you are an engineer/ maths graduate/ physics grad/ arts/BSc/literature etc. Tell me why banking as a career. ?

Answer:- I have provided multiple answers for various streams. **Economics Graduate :** Since I am from an economics graduate and banking is all about economy hence I think there should not be any better combination than this. My background and knowledge would enable me to judge every economic aspect related to the sector and work accordingly. I can make an impact in the organizational agendas with my economic ideas and solutions which can help my organization better off in every field.

For all those streams which don't directly relate to banking. This can be a good answer as for these questions. [For BSC, Arts, physics, maths grad,] :

Sir to be honest, every graduate aspires to have a well-settled job where promotional aspects are better and at the same time offer job security. So after judging various job profiles, I finally chose banking owing to its quick recruitment process+ coming from BSc/Maths/Art field I am well-versed with the aptitude part of the test that gave me an extra edge while preparing. Again better promotional policies and dynamic and demanding nature of the job makes this sector one of the most sought-after field by aspirants and I was no exception. That's it.

Q. Suppose you got posted to a remote area far away from home where the day to day facilities are not that good. What will be your mindset then ?

Answer : If I get posted to an extremely remote area where facilities are not that good then first my priority would be to adapt myself to what is available to me there because I can't get everything everywhere and execute properly to perform to my maximum ability for my organization there.

Q. Do you feel that it is difficult to maintain work life balance for a bank employee ?

Answers : Nothing worthwhile comes easy Sir and that's life. The problem begins when we misinterpret difficult as impossible. Because if we want something badly we find ways to get it and same is the case with work-life balance in banking sector it's just that some genuine efforts that are needed to maintain balance between our work and personal life.

Q. Your graduation marks show you are a bright student. Then why are you not pursuing your own field ?

Answer :- Sir, according to my principles of life, whatever I am doing, I will strive hard to become the best in that. Given the amount of time I am devoting to my Graduation and the aspirations of my parents towards it, it will be pointless if I don't give my best here. So I tried my best in my graduation and got xy %, but later in my life, I planned to shift my focus towards bank preparation and did not

opt for pvt sector as I believe in my capability that I may face few setbacks but the I will get back and reach the finishing line one day. (they will ask the reason for choosing banking as a followup question,, so don't tell them in this answer, and we all prepared for it, another 3 minutes of interview will be yours.

Q. (For IBPS)Tell me your preference order for banks. Why do you gave first priority to xyz bank.

Answer : For IBPS My preference is:

BOB
PNB
INDIAN
CBI
UCO
IOB
BOM

I choose BOB as my first choice because:

- a)I have Savings account and FD in this bank hence i am quite satisfied as a customer for their timely services, staff behaviour, other facilities and intimation.
- b) The bank is extremely good performer in the sector and has a very vast reach, management resource to function efficiently.
- c) It also provides a good space for anyone to flourish as a good employee with lots of space to learn.

Q. What is the future of banking sector in India as per you ?

Answer:- India being the 2nd most populated nation in the world requires a robust and giant sized banking system to fulfill govt's agenda of banking services to all. Being a developing country in the global arena banks have a key role to play in the economic development of our nation. What is required is an efficient and strict management for controlling the banks so that they don't fall prey to bad administrative decisions.

Q. Given the limited no. of seats for this post, why should we choose you ?

Answer : I consider myself as a better option than others in banking because my+educational background provides me an extra edge over others to understand and perform in banking efficiently. Moreover presently i am working in LIC of India which being a financial institution provides me the required expertise to handle banking. I have immense knowledge of customer handling, financial transactions, accounting principles which would surely present me a better choice before u than others.

Q. Suppose during working, You sense some corruption in your company. Your boss tells u to keep your mouth shut. what will you do at that juncture?

Answer : You can tell your boss about how it is unethical and discuss if there is any way out. If still the thing persist, you can reach out to the head-office and complain to the suitable authorities while hiding your identity.

Q. A rich business man and a poor farmer both want to open an account, the manager has told that the business has too many loan account in bank and is veryinfluential. They are standing next to each other to get served. How will you handle the situation. ?

Answer :- Both are our customer. We can differentiate anyone. However We can generously ask the farmer to have a seat and wait for few minutes so that I can help the business man . Meanwhile, when the business man is doing the paper work I can attend the farmer. Same can be asked to businessman as well

Q. Will you lie for the bank or to the bank ?

Answer: - No I will not lie because I am here to do my duty honestly with all my dedication and hard work. Instead of faking it with a lie , I will try to find another way which will sort out things for good.

Q. What u will do, if there is no electricity in your branch, how will you handle the situation ?

Answer:- If the branch has no generator/ power backup and there are too many customers there to be served, we can ask them to segregate themselves based on work so that the crowd can be handled effectively. Like many will be there for cash deposit, atm card issue, cheque submission, which can be done manually with operating system, If some has come for opening FD, we can take the forms from them and tell them we will inform you once it is done . That's what I will do. Also, towards the end of the day, we can write to the headoffice to arrange for an inverter or generator asap, so that the working of bank is not disturbed in any such situation.

FUNCTIONS OF RBI

Currency System In India Along with Government of India, RBI is responsible for the design, production and overall management of the nation's currency, with the goal of ensuring an adequate supply of clean and genuine notes. The Government of India is the issuing authority of coins and supplies coins to the Reserve Bank on demand. The Reserve Bank puts the coins into circulation on behalf of the Central Government. The Department of Currency Management at Central Office, Mumbai, in cooperation with the Issue Departments of the Reserve Bank's Regional Offices across India oversees currency management. The function includes supplying and distributing adequate quantity of currency throughout the country and ensuring the quality of banknotes in circulation by continuous supply of clean notes and timely withdrawal of soiled notes. Currency chests are extended arms of the Reserve Bank Issue Departments and are responsible for meeting the currency requirements of their respective regions.

RBI's Clean Note Policy

- Education campaign on preferred way to handle notes: no stapling, writing, excessive folding etc. Timely removal of soiled notes: use of currency verification and processing systems and sorting machines Exchange facility for torn, mutilated or defective notes: at all branches of commercial banks.

As per the Indian Coinage Act:

- (a) a coin of any denomination not lower than one rupee, for any sum not exceeding one thousand rupees;
- (b) a half-rupee coin, for any sum not exceeding ten rupees;
- (c) any other coin, for any sum not exceeding one rupee:

Note: Provided that the coin has not been defaced and has not lost weight so as to be less than such weight as may be prescribed in its case.

Denominations of coins and notes in circulation

- Coins in circulation: 50 paise, 1, 2, 5 and 10 Rupee

Coins in India

- Coins: The Government of India has the sole right to mint coins. The designing and minting of coins in various denominations is also the responsibility of the Government of India. Coins are minted at the four India Government Mints at Mumbai, Alipore (Kolkata), Saifabad (Hyderabad), Cherlapally (Hyderabad) and NOIDA (UP). Denominations: Coins in India are presently being issued in denominations of one rupee, two rupees, five rupees and ten rupees.
- **Note:** Coins can be issued up to the denomination of Rs.1000 as per the Coinage Act, 1906.

Types of Bank Notes in India

- Contemporary Currency notes have 15 languages on the panel which appear on the reverse of the note. Soiled Notes: Soiled notes are those which have become dirty and slightly cut. Notes which have numbers on two ends, i.e. notes in the denomination of Rs.10 and above which are in two pieces, are also treated as soiled note. The cut in such notes, should, however, not have passed through the number

panels. Mutilated Notes: Notes which are in pieces and/or of which the essential portions are missing can also be exchanged. Essential portions in a currency note are name of issuing authority, guarantee, promise clause, signature, Ashoka Pillar emblem/portrait of Mahatma Gandhi, water mark. Imperfect banknotes: Imperfect banknote means any banknote, which is wholly or partially, obliterated, shrunk, washed, altered or indecipherable but does not include a mutilated banknote.

What is Monetary Policy?

- Monetary policy refers to the policy of the central bank with regard to the use of monetary instruments under its control to achieve the goals specified in the Act. Reserve Bank of India (RBI) is vested with the responsibility of conducting monetary policy. This responsibility is explicitly mandated under the Reserve Bank of India Act, 1934.

Objective of Monetary Policy

- The primary objective is to maintain price stability while keeping in mind the objective of growth. In May 2016, RBI Act, 1934 was amended to provide a statutory basis for the implementation of the flexible inflation targeting framework.
- The amended RBI Act also provides for the inflation target to be set by the Government of India, in consultation with the Reserve Bank, once in every five years. Accordingly, the Central Government has notified in the Official Gazette 4 per cent Consumer Price Index (CPI) inflation as the target for the period from August 5, 2016 to March 31, 2021 with the upper tolerance limit of 6 percent and the lower tolerance limit of 2 per cent.
- The monetary policy framework aims at setting the policy (repo) rate based on an assessment of the current and evolving macroeconomic situation; and modulation of liquidity conditions to anchor money market rates at or around the repo rate.

What is MPC?

- Section 45ZB of the amended RBI Act, 1934 provides for an empowered six member monetary policy committee (MPC) to be constituted by the Central Government.

The Members of the current MPC are as follows:

1. Governor of RBI – Chairperson, ex officio;
2. Deputy Governor of RBI, in charge of Monetary Policy – Member, ex officio;
3. One officer of RBI to be nominated by the Central Board – Member, ex officio;
4. Shri Chetan Ghate, Professor, Indian Statistical Institute (ISI) – Member;
5. Professor Pami Dua, Director, Delhi School of Economics – Member; and
6. Dr. Ravindra H. Dholakia, Professor, Indian Institute of Management, Ahmedabad – Member. (Members referred to at 4 to 6 above, will hold office for a period of four years or until further orders, whichever is earlier.)

The MPC determines the policy interest rate required to achieve the inflation target. RBI's Monetary Policy Department (MPD) assists the MPC in formulating the monetary policy. Financial Markets Operations Department (FMOD) operationalises the monetary policy, mainly through day-to-day liquidity management operations.

Demand and Time Liability (NDTL) -It is the total of Demand Liability and Time Liability. For Banks the demand liability is refers to those deposits that can be withdrawn on demand. Like Savings and Current Deposit. While Time Liability refers to those deposits that are repayable after secific maturities. The total of this Demand and Time Liability is termed as NDTL. This concept will be useful in understanding many other concepts.

Cash Reserve Ratio (CRR) – all Banks (scheduled and non scheduled) have to maintain a certain percentage of their NDTL with the Reserve Bank of India. This percentage is decided by RBI from time to time. Banks to to keep this much percent Cash with the RBI. Cash Reserve Ratio (CRR) ensures that a part of the bank’s deposit is with the RBI and is hence safe.

- Section: Section 42(1) of the RBI Act, 1934
- Increase CRR = Less Liquidity
- Decrease CRR = More Liquidity

Note: CRR is the minimum amount that banks have to maintain as reserve with the RBI. Banks can maintain more reserve though. However no Interest is paid on CRR

Statutory Liquidity Ratio-Statutory Liquidity Ratio (SLR)- is the percentage of NDTL that banks have to set aside in form of either Cash, Gold, Investment in Government Securities. RBI can prescribe SLR ranging from 0% to 40%.

Objectives of SLR:

- To increase the Banks investment in approved government securities,
- To ensure Solvency of the bank (as this much money is safe)
- To restrict unlimited credit expansion
- Section: Section 24 of Banking Regulation Act 1949.

Repo Rate: It is the interest rate charged by RBI from banks, when Banks borrow money fromRBI. Repo Rate is also known as Policy Rate in India. (Bank has to pay this much interest)

Reverse Repo Rate: Banks can park their excess money with RBI to earn some interest. The interest paid by RBI to banks when the Banks deposit their money with RBI. This is done aganist government securities. (Banks will get this much interest)

Corridor Gap- The difference between Repo Rate and Reverse Repo Rate is known as Corridor Gap or Rate of Corridor. Suppose Repo Rate= 6.25% and Reverse Repo Rate=6% Then Rate of Corridor = 0.25% or 25 bps.

Liquidity Adjustment facility (LAF)-It is a liquidity adjustment mechanism used by RBI for adjustment of liquidity in the economy. Under LAF the liquidity injection is done through Repo operations (Since Bank is borrowing money from RBI) while liquidity absorption (Since bank is submitting its money to RBI) frombanks is done through Reverse repo operations.

Marginal Standing Facility (MSF)-It is a facility provided by RBI under which banks can lend money from RBI overnight (1 day or if its Friday then for 3 days). It is a facility by RBI for banks to match their short term cash mis-match. See both LAF Repo and MSF are a mean for Banks to take loan from RBI. Lets see the difference between LAF Repo and MSF

Bank Rate: It is a tool that has become dormant now. It is the rate at which the Reserve Bank use to buy or re-discount bills of exchange or other commercial paper of the bank. With the introduction of Liquidity Adjustment Facility, RBI has discontinued the discounting/rediscounting of bills of exchange.

MONETARY POLICY COMMITTEE (MPC)

- The Monetary Policy Committee is a statutory and institutionalized framework under the Reserve Bank of India Act, 1934, for maintaining price stability, while keeping in mind the objective of growth.
- An RBI-appointed committee led by the then deputy governor Urjit Patel in 2014 recommended the establishment of the Monetary Policy Committee.
- The Governor of RBI is ex-officio Chairman of the committee.
- The committee comprises six members (including the Chairman) – three officials of the RBI and three external members nominated by the Government of India.
- The MPC determines the policy interest rate (repo rate) required to achieve the inflation target (4%).
- Six-member Monetary Policy Committee (MPC) .
- 3 (RBI) + 3 (Govt of India) = 6
- Monetary Policy Committee (MPC) has been constituted by the Central Government under Section 45ZB of RBI Act, 1934.
- The main objective of the Monetary Policy is to maintain price stability while keeping in mind the objective of growth.
- Another objective is to keep the inflation target in control. (Inflation is a general rise in the price level of an economy over a period of time.)
- The Inflation target is determined by the Central Government, in consultation with the Reserve Bank of India.
- It is defined in terms of the Consumer Price Index, once in every five years.
- Central Government has decided the Inflation target for the 5-year period – April 1, 2021 to March 31, 2026 with the upper tolerance limit of 6 percent and the lower tolerance limit of 2 percent.
- This means that inflation should not go below 2% and should not go above 6%. In other words, the inflation can be in the range of 4 (+/- 2)%.
- It is the responsibility of the Reserve Bank of India, to ensure that inflation remains in this band of 2% to 6%.

Meetings of Monetary Policy Committee

- To achieve the objective of Monetary Policy, the MPC conducts meetings. As per the RBI Act, 1934, RBI has to conduct at least four meetings of the Monetary Policy Committee in a year.
- Presently, the Monetary Policy Committee meeting is conducted once in every 2 months i.e. 6 times in a year.
- The quorum for the meeting of this Monetary Policy Committee shall be four Members.
- Minutes of MPC meet: The Reserve Bank of India shall publish, on the fourteenth day after every meeting of the Monetary Policy Committee the minutes of the meeting.

The three presidency banks were amalgamated into a single bank, the Imperial Bank of India, in 1921. The Imperial Bank of India also functioned as a central bank prior to the establishment of the Reserve Bank in 1935.

Indian owned banks– The first Indian owned bank was the Allahabad Bank set up in Allahabad in 1865, the second, Punjab National Bank was set up in 1895 in Lahore, and the third, Bank of India was set up in 1906 in Mumbai.

NON-PERFORMING ASSET (NPA)

What is Asset and Liability of a Bank?

- **Assets of a Bank:** In simple language, assets are those portion of banks capital that belongs to the bank and which the customer is liable to pay to the bank. For example, a bank gives a loan to a customer. That money (loan money) was of the bank. The customer is liable to pay the loan amount back to the bank.
- So this money that belongs to the bank which is with the customer is an asset of the bank.
- **Liability of a bank:** Liability is that portion of the banks capital that it needs to pay to the customer as it belongs to the customer. Like the amounts deposited in Savings and Current Accounts of the customer

What is Non-Performing Asset?

- An asset becomes non- performing when it stops generating income for the bank.
- Example: When a bank gives a loan to its customer, in return the customer pays interest on the loan to the bank. This interest is the income for the bank in case of loans. If the customer stops paying this interest, the income from this asset (Loan) stops. Hence it becomes non-performing for the bank. But there must be some number of days after which the bank must consider any asset to be NPA. The same is given below:

- A non--performing asset (NPA) is a loan or an advance where; Term Loans Interest/instalment of principal amount remain overdue for a period of more than 90 days.
- Overdraft/Cash Credit (OD/CC)- The account remains 'out of order' for more than 90 days.
- Bills purchased and discounted- the bill remains overdue for a period of more than 90 days.

PRIORITY SECTOR LENDING

Reserve Bank of India has put in a framework wherein banks are required to lend a certain percent of there loans to the priority sector. Suppose presently the Priority Sector Lending target is fixed at 40%, which means that if a bank has given loans worth Rs 100 Crores then out of these Rs 40 Crore loan must be given to Priority Sector.

PSL is applicable on which banks?

- Priority Sector Lending Scheme is applicable on
- Commercial Bank including
- Regional Rural Bank (RRB),
- Small Finance Bank (SFB),
- Local Area Bank and
- Primary (Urban) Co-operative Bank (UCB) other than Salary Earners' Bank

BASIC QUESTIONS OF BANKING AWARENESS

Q. If a customer want to open a Bank Account , what are the things required.?

Answer: I am assuming, the customer is asking for a basic Saving bank's account. For that, he need to provide 2 important things to comply with the KYC norms.

1. Identity proof 2. Address proof.

If the person is carrying Aadhaar card [not mandatory as per SC] , then that is valid document which can be accepted both as ID proof and address proof.

However if the person is going to do transactions of more than 50k, he has to provide Pan Card as well. Third thing is Recent Photograph and Application form for the same.

For minor however, school identity card also is suitable along with the KYC document of their parents or Guardian.

Q. What is KYC ?

Ans : KYC means "Know Your Customer". It is a process by which banks obtain information about the identity and address of the customers. This process helps to ensure that banks' services are not misused. The KYC procedure is to be completed by the banks while opening accounts. Banks are also required to periodically update their customers' KYC details.

Q. What are the documents to be given as 'proof of identity' and 'proof of address'?

Answer : The Government of India has notified six documents as 'Officially Valid Documents' (OVDs) for the purpose of producing proof of identity. These Six documents are Passport, Driving License, Voters' Identity Card, PAN Card, Aadhaar Card issued by UIDAI and NREGA Job Card. Customers need to submit any one of these documents as proof of identity. If these documents also contain your address details, then it would also be accepted as 'proof of address'. If the document submitted by him for proof of identity does not contain address details, then you will have to submit another officially valid document which contains address details.

Q. What if the customer don't have above documents , can he not open an account?

Answer: Yes. He can still open a bank account known as 'Small Account' by submitting your recent photograph and putting your signature or thumb impression in the presence of the bank official.

Q. What is e-KYC? How does e-KYC work?

Answer: e-KYC refers to electronic KYC. e-KYC is possible only for those who have Aadhaar numbers. While using e-KYC service, you have to authorize the Unique Identification Authority of India (UIDAI), by explicit consent, to release your identity/address through biometric authentication to the bank branches/business correspondent (BC). The UIDAI then transfers your data comprising your name, age, gender, and photograph electronically to the bank. Information thus provided through e-KYC process is permitted to be treated as an 'Officially Valid Document' under PML Rules and is a valid process for KYC verification.

Q. A person carrying Pancard enters a bank premise and ask you to open an account. Will you do it ?

Answer: No, because Pan Card will only serve the purpose of Identity proof but not address proof.

Q. What is creditor and debtor ?

Answer: If A takes money from B, the A is debtor for B and B is creditor for A.

Q. What do you means by Core in CBS ?

Answer: CBS is an acronym of Core Banking Solutions. Core stands for Centralized Online Real-time Exchange.

Q. An account holder father want to know the balance of a person's account . What will you do and why ?

Answer : We can't disclose a customer information to any person if he is not the account holder. This violates the trust of the customer –bank relationship. We can simply ask him to get in writing with signature of the customer or to bring the account holder itself. If he is rude, we can tell them about certain apps using which he can know the account holder's balance.

Q. What's on your take on loan waiver of farmers? Is it beneficial for the country?

Answer: It is beneficial to some extent for regrowth or rejuvenation of dilapidated farmers, which in turn help economy to grow. But this is a temporary solution. Govt. should look for new policies like PM AASHA and should also introduce policies to improve the condition of farmers so that they can implement better irrigation methods, suitable fertilizers and also cold storage in every village should be made. This way they will be able pay all their dues in future.

Negative side of this is, Farmers may think that the next loan which they will take will be waived some day by government, hence they may not pay dues thereby increasing NPAs for banks. You can add more points from your side.

Q. Why the government is infusing money in public sector banks? What is the need?

Answer : 1. To draw them out of the NPA losses and strengthen them.

2. To maintain credit flow in economy.

3. To maintain capital as per the Basel 3 accord

Q. How bank earns profit?

Answer : The bank earns profit in various ways

a) Banking value chain

b) Accepting deposit

c) Providing funds to borrowers on interest

d) Interest spread

e) Additional charges on services like checking account maintenance, online bill payment, ATM transaction

Q. What are the roles and responsibility of a PO ?

Answer : The answer will try to cover many points.

- After successful completion of probation period, s PO is posted in any bank branch as an Assistant Bank Manager to handle works on daily customer transactions, viz. passing a cheque, draft issuance, cash management etc.
- He/She has to work towards increasing the bank business viz. managing cash flow, loans and mortgages and finances. Another responsibility of PO is to work as public relations officer, handle customer complaints and address various customer related issues such as discrepancies in accounts, rectification of undue charges and look into complaints regarding services provided by the bank.
- Once he/she gets acclimatized to the bank environment and gain enough experience on bank's working procedures, based on their personal skills and aptitude, they can be assigned more responsible work viz. planning, budgeting, marketing, loan processing and approval, investment management etc.
- The work of a bank PO also includes managerial tasks, such as supervision of clerical work, taking decisions for the benefit of the bank, managing cash balance etc. PO has to verify all the work done by bank clerk. All the transactions of bank involve the role of maker and checker. For example, in cash transactions, if clerk is the maker, then the PO is the checker; in case of loans, generally he/she is the maker and bank manager is the checker. The responsibility of losses resides with the checker.
- He/she takes care of the loan related documents and performs on site visit of the loan taking parties as and when required. A bank PO issues ATM cards, cheque books, Demand Drafts etc. It is anticipated that a PO should be aware of all the latest developments of the bank.
- They are required to read all the circulars and should know about all the decisions taken by the bank management.

Q. What u will do, if someone comes to break his FD, and as a banker u have to save his FD ?

Answer : Will try to convince him like to take loan from the FD. For instance, if his required amount is less than fd, he can take that particular amount alone as loan, then the remaining unloaned amount will yield interest to him. Also you can provide OD Limits to them.

Q. If you are already working as a clerk in a bank and attending the interview , what are questions I can expect ? What are the works you do ?

Answer. Passbook printing , availing credit card, gst updation, loan paper review, account opening, Neft, RTGS etc.

Q. How do you think your officer handles things ?

They work with full dedication. They take things very seriously as its related to finance and work for the betterment of the branch. If your branch has received awards recently, you can add that too. But only when you know little about the awards .

Q. What things different from your officer will you do, that will create impact on customer. ?

Answer. They are doing great work in their respective positions. Greetings them with a smile and hearing what they have to say even if its repetitive. So I will try to do the same.

Q. Tell me the quarterly result of your bank. Your branch come under which category?

Answer: Answer w.r.t. to your branch performance like [NPA , Profit/loss, CAR, ROA] and categorize them based on Capital, Very Large Branch etc. Since you are working in a bank already , then can do in details about how to check fraudulent cheques, conditional questions, based on your experience answer them politely.

Q. What is a bank and what does it do ?

A Bank is a financial institution which is licensed to receive the deposits and lend loans to the needy. The banks also perform other functions in the form of currency exchange, wealth management, financial service, safe deposit boxes and so on. The main function of a bank apart from receiving deposits and lending money to businesses and individuals involves disbursing payments, safeguarding money and investing the funds in securities. The concept of the banking system in India was developed during the British era. The British East India Company has to its credit establishing three banks in India namely Bank of Bengal during 1809, Bank of Bombay in 1840 and Bank of Madras in 1843. All these three banks were amalgamated and the Imperial Bank came into existence which was further taken over by SBI during 1955.

Q. What is a Nationalized Bank?

Nationalization refers to the transfer of public sector assets to be operated or owned by the state or central government. In India, the banks which were previously functioning under private sector were transferred to the public sector by the act of nationalization and thus

the nationalized banks came into existence. The history of banking in India states that the post-independence, the Government of India initiated various measures to play an active role in the economic development of the nation which resulted in the establishment of the Reserve Bank of India in April 1935 and later nationalized the same during 1949 under the terms of the Reserve Bank of India Act of 1948 and another measure is the nationalization of banks in India. Post-independence, the Indian government adopted a planned economic development for the betterment of the country. The government of India under the leadership of the then Prime Minister Indira Gandhi issued an ordinance to nationalize 14 largest commercial banks in India with effect from July 19, 1969, under the regulatory authority of the Reserve Bank of India. These 14 banks contained up to 85 percent of bank deposits in the country and most of them were privately owned. During 1980, 6 more commercial banks followed the suit and came under nationalized cover. Till the 1990s, their growth grew at a snail's pace of around 4% annually.

During early 1990's, the government of India adopted the policy of liberalization and licensed a small number of private banks in the country which helped for the rapid growth of the economy of India.

Nationalization & its Impacts :

- The nationalization of banks led to an increase in the efficiency of the banking system in India.
- This also boosted the confidence of the masses in the banks.
- The sectors that were not performing well like small-scale industries and agriculture got a boost.
- This led to an increase in funds and thus an increase in the economic growth of India.
- The nationalization of banks also increased the penetration of banks.
- The profit motive got replaced with the service motive.
- This was mainly seen in the rural areas of India.
- The nationalization of banks helped in stabilizing the cost by removing the shortage of essential goods.
- It also helped the government to get all the large gains of banks as revenue.
- It helped to remove the competition and increase the working efficiency of Banks
-

ASSETS-Banks are giving loan to us we pay interest to the banks, that's why they are assets for the banking system and the income which they are getting is known as YIELD OR INCOME. The avg. interest which bank get on loans is known as YIELD OR INCOME. Yield should be as high as possible, but because of the competition b/w various banks they cannot increase interest rate on loans. If one Bbank increases the customer will go to second bank, their difference is hardly 0.25% or 5%.

LIABILITIES-When we deposit money in the banking system, banks are required to pay us interest the deposits with the banks are known as liabilities. The avg. interest on all these deposits put together is known as COST OF FUNDS for banks.

The cost of funds should be as low as possible. Now how to reduce this cost of funds?

Cost of funds can be reduced if banks have more current a/c and saving a/c deposits because -

1. In Current a/c banks are not required to pay any interest and

2. In Saving a/c the interest rate is very less around 4%. But if banks have more fixed deposits, the cost of funds will be more. That's why in the banking system banks require more current a/c and saving a/c deposits, but the problem here is CASA deposits can be withdrawn at any point of time, they are unstable deposits, today he may deposit 10 crores, tomorrow he may withdraw all the 10 crores, that's why they are volatile deposits. But fixed deposits, they are for fixed terms, banks can plan their activities, so the advantage of having more fixed deposits is, these deposits are stable, banks can plan their loans. That's why banks have to judiciously mix support these deposits.

TYPES OF ACCOUNT

I am covering different types of accounts here as they can ask anyone of these.

Types of Bank Account:

- Fixed Deposit Account or Time Deposit Accounts
- Current Account or Demand Deposit Account
- Saving Account
- Recurring Deposit Account
- Demat Account
- NRI Account

1. Fixed Deposit Account or Time Deposit Accounts: Cash is deposited in this account for a fixed period. This is not transferable. If the depositor stands in need of the amount before the expiry of the fixed period, he can withdraw the same after paying the penalty to the bank. This type of deposit attracts high rate of interest. Longer the period of deposit higher is the rate of interest. It is also called Time Liability of the Bank. Features: Period of deposits: 7 days to 10 years. Minimum Amount to Deposit: Varies Bank to Bank

2. Current Account or Demand Deposit Account: A depositor can deposit his funds any number of times he likes and can withdraw the same any number of times he wishes. Ordinarily businessmen deposit their funds in this account. No interest is paid by the bank on this account. The bank demands some charges from the depositors if the amount lying in the account falls below the minimum limit.

Features:

- Overdraft facility will be available.
- Internet banking facility also available.
- Saving Account: In this account, interest is given now on per day basis between 10th and 30th of every month.

Negotiable Instruments-Negotiable Instruments are documents that guarantee the payment of a specific sum of money, either on demand or at a set time to a specific person. It is a transferable, signed document that can be transferred from person to person. The person who receives the payment, must be named or otherwise indicated on the instrument.

According to Section 13 of the Negotiable Instruments Act, 1881, a negotiable instrument refers to “promissory note, bill of exchange, or cheque, payable either to order or to bearer”. So, as per Negotiable Instruments Act, 1881 there are just three types of negotiable instruments i.e.,

- Promissory note
- Bill of exchange
- Cheque

But apart from these, many other documents are also recognized as Negotiable Instruments on the basis of custom and usage, like Negotiable Instruments 29 treasury bills, share warrants, hundis, etc. (only if they possess the features of negotiability).

Promissory Note

Section 4 of The Negotiable Instruments Act, 1881 defines Promissory Note as: “A ‘Promissory note’ is an instrument in writing (not being a bank-note or a currency-note) containing an unconditional undertaking, signed by the maker, to pay a certain sum of money only to, or to the order of, a certain person, or to the bearer of the instrument.”

There are mainly two parties involved in a promissory note.

The Maker or Drawer: the person who makes the promissory note and promises to pay the amount stated therein. The Payee: the person to whom the amount is to be paid.

Bill of Exchange

Section 5 of the Negotiable Instruments Act, 1881 defines a bill of exchange a ‘an instrument in writing containing an unconditional order, signed by the maker, directing a certain person to pay a certain sum of money only to or to the order of a certain person, or to the bearer of the instrument’.

There are three parties involved in a bill of exchange. They are

- The Drawer: The person who makes the order for making payment.
- The Drawee: The person to whom the order to pay is made.
- The Payee: The person to whom the payment is to be made.

Demand Drafts -A DD is a negotiable instrument similar to a bill of exchange. It is used for effecting transfer of money. A issue a DD to a client (Drawer), directing another bank (Drawee) or one its own branches to pay a certain sum to the specified party (Payee) directly without involving the drawing bank after presenting.

In a demand draft there is guaranteed payment by the banker and there is no question of it bouncing. The biggest difference between a cheque and a DD is that the payment is always honoured. Few other differences between cheque and DD: The cheque is issued by the customer, whereas Demand draft is issued by the bank. In cheque payment is made after presenting the cheque to the bank, while in DD is given after making payment to the bank. A cheque can bounce due to insufficient balance. DD cannot be dishonored as the amount is paid beforehand. Payment of cheque can be stopped by the drawee, whereas payment cannot be stopped in DD. A cheque can be paid to bearer or order. While DD is paid to a person on order. In cheque drawer and payee are different persons. In DD, both parties are banks. A cheque needs signature to transfer amount, While DD does not require signature to transfer funds.

National Payment Corporation of India (NPCI)

NPCI is an umbrella organisation that operates retail payments and settlement systems in India. It is an initiative of Reserve Bank of India (RBI) and Indian Banks' Association (IBA) for a robust payments and settlement infrastructure under the provisions of Payment and Settlement Systems Act, 2007.

- It is a payment gateway platform used for Aadhaar schemes. Others: RuPay Card Scheme, Bharat Bill Payment System (BBPS), Aadhaar Enabled Payment System (AEPS).

National Income

National Income is the total income earned by a nation. The rate of savings and investment in an economy also depend on the national income of the country.

GDP: Gross Domestic Product (GDP) is the products which measures all the final goods produced within the boundary of a nation within a specific period of time.

GDP also includes the information regarding inflation.

GDP = Consumption + Government Expenditures + Investment + Exports – Imports

GNP: Gross National Product (GNP) is the common measures which counts all the income collected from the factors of production which are owned by the citizens of a nation.

GNP = GDP + Net income inflow from abroad – Net income outflow to foreign countries

Examples:-

A Honda plant produce an output, it will not be included in GNP but will be included in GDP. Revenue from the sales of the output will go to Japan, even though the products are made & sold in India.

Green Accounting: It means measuring the National Income of the country taking into estimation of pollution & environmental damage.

NDP at Factor Cost = Compensation of employees + Net interest + Rental & royalty income + Profit of incorporated and unincorporated NDP at factor cost.

NDP: Net Domestic Product (NDP) is the detailed capital which has been used up over the years in the form of housing, vehicle or machinery declination from which the depreciation is to be deducted. The depreciation for it is referred as capital consumption allowance & represents the amount of capital which is represented as depreciated assets. $NDP = GDP - \text{Depreciation}$

NNP: Net National Product (NNP) is the total value of goods produced & services capital goods. $NNP = GNP - \text{Depreciation}$

Two major things recognized while calculating Incomes are:

• **Factor Cost:** it is the input cost also known as production cost. For eg, raw materials cost, salary of the workers, machine cost etc.

• **Market Price:** it is the output cost. For eg, transportation cost, maintenance cost, marginal profit etc.

NNP at Factor cost (National Income): $NNP \text{ at market price} - \text{indirect taxes} + \text{subsidies}$

GNI: Gross national income (GNI) is the total output which includes domestic as well as foreign output used by the residents of the country. GNI is the sum of

value added by all resident producers plus any product taxes (minus subsidies) not included in the valuation of output plus net receipts of primary income (compensation of employees and property income) from abroad. $GNI = GNP + \text{Net factor income from abroad}$

PPP (Purchasing Power Parity)- It estimates the total adjustment made on the currency exchange rate between countries that allow the exchange to be equal to the purchasing power of the currency of each country.

What is Financial Inclusion

- Financial inclusion may be defined as the provision of banking/financial services to the vast disadvantaged and low-income sections of the society at an affordable cost.
- In other words, it is a process of universal access to a wide range of financial services to all parts of society with a timely and adequate credit facility.
- For the development of the entire population, it is essential that banking and payment services are provided to each section of society without any discrimination.
- The examples of financial inclusion are the provision of financial services, like - bank accounts, low-cost credit for personal, productive, and other purposes, insurance facilities, financial advisory services etc.

NPA (Non-Performing Asset): It is an asset which ceased to generate income for the bank. The conditions under which an asset becomes an

NPA are as follows:

1. If interest or installment or both of principal remain overdue for a period of more than 90 days in respect of a term loan.
2. If Overdraft/ Cash Credit for an account remains 'out of order'.
3. If bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted.
4. If installment of principal or interest remains overdue for two crop seasons for short duration crops / one crop season for long duration crops.

ASSET CLASSIFICATION:-

RBI has classified nonperforming assets into the following three categories based on the period for which the asset has remained non-performing and the realizability of the dues:

1. Substandard Assets: With effect from March 31, 2005, a substandard asset is one, which has remained NPA for a period less than or equal to 12 months.
2. Doubtful Assets: With effect from March 31, 2005, an asset is classified as doubtful if it has remained in the substandard category for a period of 12 months.
3. Loss Assets: A loss asset is one where loss has been identified by the bank or internal or external auditors or the RBI inspection but the amount has not been written off wholly. In other words, such an asset is considered uncollectible and of such little value that its continuance as a bankable asset is not warranted although there may be some rescue or recovery value.

Reasons for NPA:

1. Macroeconomic situations: When a country is not growing on expected lines i.e. GDP is not growing, no demand for goods, then industry suffers and not able to payback.
2. Increased Interest Rate: The loan is taken at a time when interest rates were much higher than the present interest rate.
3. When some sectors of the economy are doing bad like Infrastructure, Power due to Land acquisition and forest related issues and environment clearances.
4. Wilful defaulting: When one is able to pay but is not paying like Vijay Mallya.

What is BASEL III Norms?

The Basel committee on Banking Supervision (BCBS) was formed in 1974 by a group of central bank governors of G-10 countries. Later on, the committee was expanded to include members from nearly 30 countries. BCBS in 1988 released Basel-I accords and subsequently to overcome the loopholes in it Basel –II was released in 2004. BCBS released a comprehensive reform package in Dec 2010, which is called as Basel -III, a global regulatory framework for more resilient banks and banking systems. These recommendations cover almost all the nations. And it amends the Basel -2 guidelines, also introduces some new concepts and recommendations.

Need For BASEL-3 Worldwide: Banks mainly deals with three kinds of risks. These are :

1. Credit risk
2. Market risk
3. Operational risk

What is Credit risk?

It is basically the risk of loss, arising when a borrower is not capable of paying back the loan as promised. Such borrowers are also known as Sub-prime borrowers.

Now let's go back to the year 2008, when all of us observed [witnessed the Global financial crisis, which originated in US because of these Subprime borrowers and this crisis thereafter spilled over in the other markets as well. It created financial crisis throughout the world. Thus, a need was felt for more stringent banking regulation worldwide. Now In India what is the need to adopt such norms when we saw our banking system standing firm even during the crisis.

Define Inflation/Deflation/ Stagflation/Recession ?

Answer : Inflation refers to a general increase in the price of goods and services. This occurs when demand for these items grows faster than the supply. The result is more money chasing fewer goods, and therefore prices increase. Ensuring that your client's investments outpace the rate of inflation over the long haul is one of the major challenges for an IA. The most important measure of inflation is the Consumer Price Index (CPI). The stock and bond markets are very sensitive to changes in the CPI because when inflation rises, purchasing power is eroded. The ensuing drop in consumer spending has a negative effect on stock and bond prices. The rate of inflation tends to increase during

economic expansions and decrease during recessions. Inflation tends to be moderate during expansions, and high inflation rates tend to hasten the transition from peak to recession.

Deflation is rare and occurs only during recessions.

Deflation is a general decline in prices, often caused by a reduction in the supply of money or credit. Deflation can also be caused by a decrease in government, personal or investment spending. The opposite of inflation, deflation has the side effect of increased unemployment since there is a lower level of demand in the economy, which can lead to an economic depression. Declining prices, if they persist, generally create a vicious spiral of negatives such as falling profits, closing factories, shrinking employment and incomes, and increasing defaults on loans by companies and individuals. To counter deflation, the Federal Reserve (the Fed) can use monetary policy to increase the money supply and deliberately induce rising prices, causing inflation. Rising prices provide an essential lubricant for any sustained recovery because businesses increase profits and take some of the depressive pressures off wages and debtors of every kind. This is the opposite of inflation, which is characterized by rising prices (do not confuse deflation with disinflation, which is simply a slowing of inflation). To many economists, deflation is more serious than inflation because deflation is more difficult to control

Stagflation : This is a condition of slow economic growth and relatively high unemployment - a time of stagnation - accompanied by a rise in prices, or inflation. Stagflation occurs when the economy isn't growing but prices are, which is not a good situation for a country to be in. This happened to a great extent during the 1970s, when world oil prices rose dramatically, fueling sharp inflation in developed countries. For these countries, including the U.S., stagnation increased the inflationary effects.

Recession : In economics, a recession is a business cycle contraction which results in a general slowdown in economic activity. Macroeconomic indicators such as GDP (gross domestic product), investment spending, capacity utilization, household income, business profits, and inflation fall, while bankruptcies and the unemployment rate rise. In the United Kingdom, it is defined as a negative economic growth for two consecutive quarters. Recessions generally occur when there is a widespread drop in spending (an adverse demand shock). This may be triggered by various events, such as a financial crisis, an external trade shock, an adverse supply shock or the bursting of an economic bubble. Governments usually respond to recessions by adopting expansionary macroeconomic policies, such as increasing money supply, increasing government spending and decreasing taxation.

NEFT & RTGS

- **NEFT stands for National Electronic Fund Transfer.**
- Introduced by: Reserve Bank of India in 2005.
- It is basically an electronic fund transfer system that works on Deferred Net Settlement (DNS) basis which resolves transactions in batches.
- The transactions under NEFT are carried out in batches.

- **Minimum Transaction Limit:** There is no minimum limit of funds that can be transferred under NEFT.
- **Maximum Transaction limit:** Rs 10 Lakh
- It is a payment system which facilitates one-to-one funds transfer. This means customer can electronically transfer funds from any bank branch to any individual, firm or corporate having an account with any other bank branch in the country.
- **Availability:** NEFT is made available for 24*7 by RBI now.
- NEFT cannot be used for abroad transactions, however, under the Indo-Nepal Remittance Facility Scheme, one can transfer funds to Nepal up to a limit of Rs 50,000.

RTGS stands for Real-Time Gross Settlement.

- It is real-time (continuous) settlement of funds individually on an order by order basis (without any delay).
- The RTGS system is basically meant for large value transactions.
- **Availability:** All days of the week
- **Minimum Transaction Limit:** Minimum amount that can be transferred under RTGS is Rs. 2 lakhs.
- There is no upper limit for the maximum amount that can be transferred to this payment system.
- Under RTGS, the bank branch of the beneficiary has to credit his/ her account within 30 minutes of receiving the message for fund transfer.
- It is generally used for corporate transactions.

IMPS & IFSC & MICR

IFSC stands for Indian Financial System Code.

- This alphanumeric code is essential for the transfer of funds electronically in India.
- NEFT and RTGS transactions use these IFSC codes in order to route the transaction messages to the concerned banks.
- The IFSC code acts as a unique identifier of different bank branches in India since this system is applicable only for domestic transactions. IFSC code consists of 11 characters. The code represent:
- First 4 alpha characters indicate – bank name
- Fifth characters is - 0
- Last 6 characters indicate – bank branch.

SWIFT

- SWIFT stands for Society for Worldwide Interbank Financial Telecommunication.
- A SWIFT transfer is a type of international money transfer sent via the SWIFT international payment network.
- This is a kind of network between banks, which can be used to send and receive messages.
- In fact, many banks and financial services providers and institutions use it, and through them, the payment becomes easily and fast.
- For every bank, there is a special swift code that works for its identification.
- The SWIFT network does not actually transfer funds, but instead, it sends payment orders between institutions' accounts, using SWIFT codes.

- A SWIFT code is an international bank code that identifies banks worldwide.
- It's also known as a Bank Identifier Code (BIC).
- SWIFT code consists of 8 or 11 characters. It denotes:
- The first 4 characters of the SWIFT code represent the code of the bank.
- The next two characters represent the country code.
- The next two characters, which may be alphabet or numeric represent the code of the location.
- The last three characters represent the code of the branch.

What do you know about the Section 7 of RBI Act.?

Answer: Section 7 of RBI act allows govt. of India to order (normally govt. suggests) RBI for following its decision through central government directors without board of directors authorization. Though this privilege is there govt. should not use it. Because RBI take decisions based on market, economic and financial situation in the country, sometimes RBI takes decisions against govt. requirements but it is for financial growth only. Losses for using section 7 of RBI act are :

1. RBI loses its autonomy
2. People are not going to believe in RBI decisions which leads to market fluctuations, instability in inflation etc.

Hence I wish govt. should not use section 7 of RBI in any situation.

What is overdraft protection?

Overdraft protection is a service that is provided by a bank to their customer. For instance, if you are holding two accounts, saving and credit account, in the same bank. Now if one of your accounts does not have enough cash to process the cheques, or to cover the purchases. The bank will transfer money from one account to another account, which does not have cash so to prevent check return or to clear your shopping or electricity bills.

Follow up :

Do banks charge for 'overdraft protection' service?

Yes, banks will charge on 'overdraft protection' services but the charges will be applicable only when you start using the service.

What is 'balloon payment'?

Answer : The 'balloon payment' is the final lump sum payment that is due. When the entire loan payment is not amortized over the life of the loan, the remaining balance is due as the final repayment to the lender. Balloon payment can occur within an adjustable rate or fixed rate mortgage.

What is 'Amortization'?

Answer : The repayment of the loan by instalment to cover principal amount with interest is known as 'Amortization'.

Follow Up : What is negative Amortization?

When repayment of the loan is less than the loans accumulated interest, then

negative Amortization occurs. It will increase the loan amount instead of decreasing it. It is also known as 'deferred interest'.

What is the difference between bank guarantee and letter of credit?

Answer : There is not much difference between bank guarantee and letter of credit as they both take the liability of payment. A bank guarantee contains more risk for a bank than a letter of credit as it is protecting both parties the purchaser and seller.

Follow Up : What is ILOC (Irrevocable Letter Of Credit)?

It is a letter of credit or a contractual agreement between financial institute (Bank) and the party to which the letter is handed. The ILOC letter cannot be cancelled under any circumstance and, guarantees the payment to the party. It requires the bank to pay against the drafts meeting all the terms of ILOC. It is valid upto the stated period of time. For example, if a small business wanted to contract with an overseas supplier for a specified item they would come to an agreement on the terms of the sale like quality standards and pricing, and ask their respective banks to open a letter of credit for the transaction. The buyer's bank would forward the letter of credit to the seller's bank, where the payment terms would be finalized and the shipment would be made.

What is disinvestment and contrast it with privatization and your personal take on it?

Answer : Disinvestment refers to transferring of one's shares over any material object/commodity to another person/entity/group of individuals. Privatisation refers to complete withdrawal of one's stakes in any material object to such a limit that he/she loses ownership power over it. Disinvestment is good to some extent to bring efficiency, competitiveness in any organization whereas privatization occurs only when someone/govt is in huge need of money or when the concerned org/object is underperforming.

What is the government logic behind the merger of three banks ?

Answer : Below is what the government proposes and hopes to achieve through this merger:

The amalgamated bank would be the third largest bank in India.

It will be a strong competitive bank with economies of scale.

It will create synergies for network, low-cost deposits and subsidiaries

The merger will lead to a substantial rise in:

1. customer base
2. market reach
3. operational efficiency
4. Wider bouquet of products services for customers
5. Employees interests will be protected.
6. Brand equity to be preserved.
7. All three banks are on Finacle CBS Platform.
8. Capital support will be ensured.

Banks in India can be categorized into Scheduled and Non-scheduled Banks.

Types of Banks

1) Scheduled Banks

Scheduled Banks in India constitute those banks, which have been included in the Second Schedule of Reserve Bank of India (RBI) Act, 1934. These banks should fulfill two main conditions:

- Paid-up capital and collected funds should not be less than Rs.5 lakhs
- Any activity of the Bank should not be detrimental or adversely affect the interests of the customers. It comprises Commercial Banks and Cooperative Banks. Commercial Banks works on a 'Profit Basis' and is engaged in the business of accepting deposits for the purpose of advances/loans.

There are four types of Scheduled Commercial Banks:

• **Public Sector Banks** : Public Sector Banks: They are those banks where Govt. is the main owner or having more than 51% stake in the capital are public sector banks. Currently, there are 21 Public Sector Banks in India including 19 Nationalized Banks. State Bank of India and its 5 Associate Banks together called State Bank Group.

• **Private sector Banks** : Private Sector Banks: Private Banks are owned by private individuals/institutions. These are registered under the Companies Act 1956 as Limited Companies. The government doesn't have a stake in private banks, but private banks are supposed to follow rules set by the RBI.

2) Non-scheduled bank

Non- Scheduled Banks in India means "a banking company as defined in clause (c) of section 5 of the Banking Regulation Act, 1949 (10 of 1949), which is not a scheduled bank". Reserve Bank of India is the central bank of the nation and all Banks in India are required to follow the guidelines issued by RBI.

• **Regional Rural Banks (RRBs)**: Previously these were 196 Regional Rural Banks sponsored by 27 State Cooperative Banks. As on 31st March 2013 due to mergers, their number has come down from 196 to 64. RRBs are regulated by NABARD.

• **Foreign Banks**: These banks are incorporated outside India and are operating branches in India also. Some foreign banks are also having their representative offices in India. As of May 2020, 45 foreign banks are operational in India.

• **Development Banks**: These include Industrial Finance Corporation of India (IFCI) established in 1948, Export-Import Bank of India (EXIM Bank) established in 1982, National Bank for Agriculture & Rural Development (NABARD) established in 1982, and Small Industries Development Bank of India (SIDBI) established on 2nd April 1990

Small Finance Banks- Small Finance Banks (SFBs) are those banks that are established for the purpose to provide financial inclusion to MSMEs, small and marginal farmers and other unorganised sector entities. They are registered under Section 22 of the Banking Regulation Act, 1949.

'Payments Banks' : A payments bank is like any other bank, but operating on a smaller scale without involving any credit risk. In simple words, it can carry out most banking operations but can't advance loans or issue credit cards. It can accept demand deposits (up

to Rs 1 lakh), offer remittance services, mobile payments/transfers/purchases and other banking services like ATM/debit cards, net banking and third party fund transfers.

NPS Vatsalya Scheme :-

- A new pension scheme named 'Vatsalya' has been proposed for minors by Union Minister for Finance & Corporate Affairs Smt. Nirmala Sitharaman in the Union Budget 2024-25.
- It is a scheme under the National Pension Scheme (NPS).
- It is designed to help parents and guardians plan for their children's future financial needs.
- Under this scheme, parents or guardians can open an account for their minor children and make contributions towards their retirement savings.
- The funds will accumulate until the child turns 18. Once the child reaches adulthood, the accumulated amount will be transferred to the standard NPS account. This plan could be seamlessly converted into a non-NPS plan when the child becomes an adult.
- The scheme operates similarly to the existing NPS.
- proposed NPS Vatsalya scheme would allow partial withdrawal before subscriber turns 18. Subscribers may be allowed to do partial withdrawal after three years of joining NPS Vatsalya and the maximum sum allowed for withdrawal is likely to be 25 per cent of contributed amount. Partial withdrawal is expected to be allowed for the purposes of education, treatment of specified illnesses, disability etc.
- An NPS Vatsalya subscriber is also proposed to be allowed to exit NPS at 18. On exit, at least 80 per cent of the accumulated corpus may be required to be invested in annuity plan, while 20 per cent can be withdrawn as lumpsum.

Some important key Facts About NPS :-

- It is a voluntary retirement benefit scheme introduced by the Government of India to facilitate regular income post-retirement for all subscribers.
- A citizen of India, either a resident, non-resident, or an Overseas Citizen of India, can open an NPS Account.
- It helps individuals build a retirement corpus by making regular contributions throughout their careers.
- It is based on a unique Permanent Retirement Account Number (PRAN), which is allotted to every subscriber.
- NPS account or PRAN will remain the same irrespective of changes in employment, city, or state. It can be used from any location in India.
- Contributions to the NPS are eligible for tax deductions under Section 80C and an additional deduction of up to ₹50,000 under Section 80CCD(1B).
- PFRDA (Pension Fund Regulatory and Development Authority) is the governing body for NPS.

- Current Minister of Rural and Development:- Shri Shiv Raj Singh Chouhan (Vidisha, Madhya)

Background:-

- To achieve the objective of “Housing for All” in rural areas, the Government of India had launched the Pradhan Mantri Awas Yojana -Gramin (PMAY-G) with effect from April 2016 with a target of construction of 2.95 crore houses with basic amenities to be achieved in phases till March 2024.

About Recent announcements in the Scheme :-

- Recently in August The Union Cabinet, chaired by the Prime Minister Narendra Modi has approved the continuation and implementation of the Pradhan Mantri Awaas Yojana – Gramin (PMAY-G) from the fiscal year 2024-25 to 2028-29.
- The financial assistance is to be provided for the construction of 2 crore more houses at existing unit assistance of Rs.1.20 lakh in plain areas and Rs.1.30 lakh in North Eastern Region States and Hill States of Himachal Pradesh, Uttarakhand, Union Territories of Jammu & Kashmir and Ladakh.

Aim:-

- This scheme aims to address the housing needs of rural India, ensuring that every eligible household has access to a pucca (permanent) house with basic amenities.
- The scheme aims to saturate the Awaas+ (2018) list and the remaining eligible households in the Socio-Economic Caste Census (SECC) 2011 Permanent wait list(PWL).

Outlay:-

- Total outlay of Rs.3,06,137 crore for FY 2024-25 to 2028-29 including Central Share of Rs.2,05,856 crore and State Matching Share of Rs.1,00,281 crore
- Continuation of the scheme beyond March, 2026 after evaluation of the PMAY-G by the NITI Aayog and re-appraisal of the scheme by EFC.
- Administrative funds at 2% of the programme funds with bifurcation of the administrative funds as 1.70% to be released to the States/UTs and 0.30% to be retained at Central Level.
- Incomplete houses from the previous phase of PMAY-G as of March 31, 2024, will be completed during the fiscal year 2024-25 at existing rates.
- The remaining 35 lakh houses not completed till 31.03.2024 would be completed to achieve the cumulative target of 2.95 crore houses of previous phase.
- Two crore more houses will be constructed under the PMAY-G during next five years from FY 2024-2029 to address housing need arisen over the years. Construction of houses for two crore more households is expected to benefit nearly 10 crore individuals.
- The Centre has relaxed the “automatic exclusion” criteria under the Pradhan Mantri Awas Yojana-Gramin (PMAY-G), allowing families owning “two-wheelers, motorised fishing boats, refrigerators, landline phones” and earning “up to Rs 15,000 per month” to now avail the rural housing scheme.

The parameters were among the criteria that render households ineligible under the scheme. The parameters that will continue to result in “automatic exclusion” are:-

- motorised three/four-wheelers; mechanised three/ four-wheeler agricultural equipment;
- Kisan Credit Card with credit limit of Rs 50,000 or above;
- Household with any member as a Government employee; Household with non-agricultural enterprises registered with Government.
- Any member of family paying income tax; Paying professional tax; Land ownership ceiling of 2.5 acres or more of irrigated land.

- Under PMAY-G, all households living in houses with pucca roof and/or pucca wall, and households in houses with more than two rooms were already filtered out. The exclusion criteria revision is significant in view of the Centre's aim to construct two crore additional houses under the rural housing scheme by 2028-29. On August 9, the Union Cabinet approved a proposal of this effect.
- Prime Minister Narendra Modi is set release an instalment of Rs 2,745 crore to PMAY-G beneficiaries on September 15 in Jamshedpur, Jharkhand. He will also distribute acceptance letters to all the targeted beneficiaries in the financial year 2024-25.

Deendayal Antyodaya Yojana - National Rural Livelihoods Mission(DAY- NRLM)

- FY24-25 Outlay:-Rs. 15047 Crore

Background:-

- The program was launched in June 2011 by the Ministry of Rural Development (MoRD)
- Current Minister of Rural and Development is:- Shri Shiv Raj Singh Chouhan (Vidisha, Madhya Pradesh).
- The Ministry of Rural Development, Government of India launched a new programme known as National Rural Livelihoods Mission (NRLM) by restructuring and replacing the Swarnjayanti Gram Swarozgar Yojana (SGSY) scheme with effect from April 01, 2013.
- NRLM was renamed as Deendayal Antyodaya Yojana – National Livelihoods Mission (DAY-NRLM) with effect from March 29, 2016
- DAY-NRLM is a Centrally Sponsored Scheme and the financing of the programme would be shared between the Centre and the States in the ratio of 60:40 (90:10 in case of North Eastern States including Sikkim; completely from the Centre in case of UTs).
- It aims to reduce poverty by enabling the poor household to access gainful self-employment and skilled wage employment opportunities resulting in sustainable and diversified livelihood options for the poor.
- This is one of the world's largest initiatives to improve the livelihoods of the poor.
- DAY-NRLM promotes building strong institutions such as Self-Help Groups (SHGs) for the poor, particularly women, and enabling these institutions to access a range of financial services and livelihoods

Key Features:-

- One member (preferably a woman) from each rural poor household would be brought under the Self-Help Group (SHG) network. Women SHG groups would have bank linkage arrangement.

- The Mission consists of four components, viz., (i) social mobilization, community institution, and capacity building; (ii) financial inclusion; (iii) livelihood promotion; and (iv) convergence

RBI Master Circular – Deendayal Antyodaya Yojana - National Rural Livelihoods Mission (DAY-NRLM):--

Women SHGs and their Federations:-

- Women SHGs under DAY-NRLM consist of 10-20 persons. In case of special SHGs i.e. groups in the difficult areas, groups with disabled persons, and groups formed in remote tribal areas, this number may be a minimum of 5 persons.

Financial Assistance to the SHGs(Self help groups)

- Revolving Fund (RF): DAY-NRLM would provide Revolving Fund (RF) support to SHGs in existence for a minimum period of 3/6 months and follow the norms of good SHGs, i.e. they follow 'Panchasutra' – regular meetings, regular savings, regular internal lending, regular recoveries and maintenance of proper books of accounts. Only such SHGs that have not received any RF earlier will be provided with RF, as corpus, with a minimum of ₹10, 000 and up to a maximum of ₹15,000 per SHG.
- The purpose of RF is to strengthen their institutional and financial management capacity and build a good credit history within the group.

Capital Subsidy has been discontinued under DAY-NRLM:

- No Capital Subsidy will be sanctioned to any SHG from the date of implementation of DAY-NRLM.

Introduction of Interest subvention:

- DAY-NRLM has a provision for interest subvention, to cover the difference between the Lending Rate of the banks and 7%, on all credit from the banks/ financial institutions availed by women SHGs, for a maximum of ₹ 3,00,000 per SHG. This will be available across the country in two ways:
- (I) In 250 identified districts, banks will lend to the women SHGs @7% up to an aggregated loan amount of ₹ 3,00,000/-. The SHGs will also get additional interest subvention of 3% on prompt payment, reducing the effective rate of interest to 4%
- (ii) In the remaining districts also, all women SHGs under DAY-NRLM will be SHGs are eligible for interest subvention to the extent of difference between the lending rates and 7% for the loan up to ₹ 3,00,000, subjected to the norms prescribed by the respective SRLMs. This part of the scheme will be operationalized by SRLMs.

Eligibility Criteria for SHGs to avail loans:-

- SHGs should be in active existence for at least 6 months as per their books of accounts (and not from the date of opening of S/B account)
- SHGs should be practicing 'Panchasutras' i.e., regular meetings, regular savings, regular inter-lending, timely repayment and up-to-date books of accounts
- SHGs should qualify as per grading norms fixed by NABARD. As and when the federations of the SHGs come into existence, the grading exercise may be done by the federations to support the banks
- All banks may use the Common Loan Application Forms devised by Indian Bank's Association (IBA) for extending credit facility to SHGs.
- SHGs may avail either Term Loan (TL) or a Cash Credit Limit (CCL) or both based on their requirement.
- In case of (Credit cash limit)CCL, banks are advised to sanction a minimum loan of ₹6 lakh to each eligible SHG for a period of 3 years with a yearly drawing power(DP)

- One woman in every SHG under DAY-NRLM may be provided a loan up to ₹1 lakh under the MUDRA Scheme, if she is otherwise eligible.
- Banks are advised to provide minimum OD facility of ₹5000 to every woman SHG member having PMJDY account in accordance with the guidelines issued by Indian Banks' Association (IBA).
- In order to facilitate use of loans for augmenting livelihoods of SHG members, at least 50% of loans above ₹1 lakh, 75% of loans above ₹4 lakh and at least 85% of loans above ₹6 lakh should be used primarily for income generating productive purposes.

Security and Margin:

- No collateral and no margin will be charged up to ₹ 10.00 lakhs limit to the SHGs. No lien should be marked against savings bank account of SHGs and no deposits should be insisted upon while sanctioning loans.
- DAY-NRLM would ensure adequate coverage of vulnerable sections of the society such that 50% of the beneficiaries are SC/STs, 15% are minorities and 3% are persons with disability, while keeping in view the ultimate target of 100% coverage of all households under the automatically included criteria and households with at least one deprivation criterion as per Socio-Economic and Caste Census (SECC).

Coverage:-

- As per the Economic Survey 2023-24 with a creation of 8.3 million SHGs, 89 million women covered under Deendayal Antyodaya Yojana -NRLM

- Launched On:- 23rd Sep, 2018
- Launched By:-PM Narendra Modi
- Launched From:- Ranchi Jharkhand
- Under:- The Ministry of Health and family Welfare(MoHFW)
- Current Minister of Health & Family Welfare:- Shri Jagat Prakash Nadda (Gujarat, Rajya sabha MP)
- Budget Allocation FY25 -The interim budget for FY25 allocated ₹7,500 crore for the scheme, a more than 10% increase over the amount spent in the just- concluded financial year
- The revised estimates for FY24 under the Ayushman Bharat scheme were ₹6,800 crore, while the Budget Estimates for FY24 were ₹7,200 crore (including a capital outlay of ₹411 crore).
- As per the FM budget speech FY 24-25 Healthcare cover under Ayushman Bharat scheme will be extended to all ASHA workers, Anganwadi workers and helpers.
- This is the "World's Largest government funded healthcare Program".
- The National Health Authority (NHA) is the nodal agency responsible for the nationwide roll-out and implementation of the AB-PMJAY scheme
- AB-PMJAY provides cashless and paperless access to services for the beneficiary at the point of service.
- It provides a cover of up to Rs. 5 lakhs per family per year, for secondary and tertiary care hospitalization. The individual's annual income must not exceed ₹2.4 lakh.
- PM-JAY is fully funded by the Government and cost of implementation is shared between the Central and State Governments.
- It Covers up to 3 days of pre-hospitalization and 15 days post- hospitalization expenses such as diagnostic and medicine.

Recent Updates :-

- The scheme was made available for 107 million poor households in the Country, roughly covering the bottom 40% of the population.
- Free hospitalisation benefits worth Rs 86,000 crore have been provided to beneficiaries of the Pradhan Mantri Jan Arogya Yojana (PM-JAY) since the scheme was rolled out in September 2018.

- More than 342.9 million Ayushman cards have been issued to beneficiaries so far. As many as 30,162 public and private hospitals are empanelled under PM-JAY.
- People from Tamil Nadu benefited most under the scheme followed by Karnataka, Rajasthan, Kerala, Andhra Pradesh and Gujarat.

TOP 5 Cards created:-

- Uttar Pradesh
- Madhya Pradesh
- Bihar
- Maharashtra
- Gujarat

BOTTOM 5 Cards created-

- Goa
- Sikkim
- Andaman and Nicobar Islands
- Lakshadweep
- Dadra and Nagar Haveli; Daman and Diu

- More than 65 million people have so far benefited from the Scheme which offers Rs.5 lakh a year free health cover
- General medicine, infectious diseases, and general surgery are the three main therapy areas covered by the Ayushman Bharat scheme now, while haemodialysis is the top-most procedure the scheme covers.

RECENT NEWS :-

- Considering that many people in the country are just one medical bill away from slipping into poverty, the Parliamentary Standing Committee on Finance recently recommended that PM-JAY scheme be extended to the 'missing middle' on a paid basis.
- According to a Niti Aayog report unveiled in October 2021, at least 30% of the population, or 400 million individuals – called the missing middle in this report –are devoid of any financial protection for health.
- The Union Cabinet on approved health coverage to all persons aged 70 years and above under the Ayushman Bharat Pradhan Mantri Jan Arogya Yojana irrespective of their income, benefiting around six crore senior citizens.
- The Rs 5 lakh free health insurance cover would benefit senior citizens of around 4.5 crore families. Eligible beneficiaries would be issued a new distinct card under the scheme.
- Senior citizens of the age 70 years and above belonging to families already covered under AB PM-JAY will get an additional top-up cover up to Rs 5 lakh per year for themselves (which they do not have to share with the other members of the family who are below the age of 70 years).
- All other senior citizens of the age 70 years and above will get a cover up to Rs 5 lakh per year on a family basis.
- It clarified that senior citizens of 70 years and above who are under private health insurance policies or Employees' State Insurance scheme will be eligible to avail benefits under the the Ayushman Bharat Pradhan Mantri Jan Arogya Yojana (AB PM-JAY)
- However, those already availing benefits of other public health insurance schemes such as the Central Government Health Scheme (CGHS), Ex-Servicemen Contributory Health Scheme (ECHS) and Ayushman Central Armed Police Force (CAPF) may either choose their existing scheme or opt for AB PM-JAY.
- According to the government, AB PM-JAY is the world's largest publicly funded health assurance scheme which provides health cover of Rs 5 lakh per family annually for secondary and tertiary care hospitalization to 55 crore individuals corresponding to 12.34 crore families.

- The scheme has covered 7.37 crore hospital admissions, including 49 per cent women beneficiaries. The public has benefited to the extent of over Rs 1 Lakh crore under the scheme, the statement said.
- “If there are two senior citizens (70 years+) in a family, then the Rs 5 lakh coverage will be shared between them.
- The initial outlay of the scheme will be Rs 3,437 crore

WILL THE HEALTH COVER MINIMISE THE DISEASE BURDEN?

- India’s population over the age of 60 years is estimated to increase from 8.6 per cent in 2011 to 19.5 per cent by 2050, according to the Longitudinal Ageing Study in India (LASI). In terms of absolute numbers it means that the 60 plus population is set to triple from 103 million in 2011 to 319 million in 2050. Health coverage in this age group is currently about 20 per cent, according to the India Ageing Report 2023.
